

O. Fireworks & Pyrotechnics

Per the Kansas Fire Prevention Code and the 2012 International Fire Code, the currently adopted fire code for the City of Salina, fireworks, pyrotechnics, and events using open flames and/or fire performers require special approval. Therefore, before you start any additional paperwork for this type of event aspect, please provide us with the details of exactly what you would like to do, and we will work with you to obtain approval.

NOTE: Approval for using fireworks, pyrotechnics, open flames, or fire performers is not guaranteed.

Please contact the Salina Fire Department at (785) 826-7340 with questions regarding fire and life safety.
